

PRELIMINARY TECHNICAL SESSIONS OVERVIEW

Date	Timetable	Room 1	Room 2	Room 3	Room 4	Room 5	Room 6	Room 7	Room 8	Room 9
Monday 14th november	14:00 15:30		Geography of Tourism, Leisure, and Global Change	Urban Geography and Emerging Urban Transformations	Local Development	Transport and geography	Sustainability of Rural Systems	Marginalization, Globalization, and Regional and Local Responses	History of Geography	Global Change and Human Mobility
	16:00 17:30		Geography of Tourism, Leisure, and Global Change	Urban Geography and Emerging Urban Transformations	Local Development	Biogeography and Biodiversity	Sustainability of Rural Systems	Marginalization, Globalization, and Regional and Local Responses	History of Geography	Others
Tuesday 15th november	09:30 10:30	Hazard and Risk	Geography of Tourism, Leisure, and Global Change	Urban Geography and Emerging Urban Transformations	Local Development	Dynamics of Economic Spaces	Sustainability of Rural Systems	Marginalization, Globalization, and Regional and Local Responses	Geographical Education	History of Geography
	11:00 12:30	Hazard and Risk	Geography of Tourism, Leisure, and Global Change	Urban Geography and Emerging Urban Transformations	Local Development	Dynamics of Economic Spaces	Sustainability of Rural Systems	Marginalization, Globalization, and Regional and Local Responses	Geographical Education	History of Geography
	14:00 15:30	Hazard and Risk	Geography of Tourism, Leisure, and Global Change	Urban Geography and Emerging Urban Transformations	Local Development	Dynamics of Economic Spaces	Sustainability of Rural Systems	Others	Climatology	History of Geography
	16:00 17:30	Hazard and Risk	Geography of Tourism, Leisure, and Global Change	Urban Geography and Emerging Urban Transformations	Local Development	Dynamics of Economic Spaces	Geographical Information Science	Others	Climatology	Health and Environment
Wednesday 16th november	09:30 10:30	Geographical Information Science	Urban Geography and Emerging Urban Transformations	Hazard and Risk	Land Use and Land Cover Change	Dynamics of Economic Spaces	Modeling Geographical Systems	Geographical Education	Political Geography	Population Geography
	11:00 12:30	Geographical Information Science	Urban Geography and Emerging Urban Transformations	Hazard and Risk	Land Use and Land Cover Change	Geography of Tourism, Leisure, and Global Change	Modeling Geographical Systems	Geographical Education	Political Geography	Population Geography
	14:00 15:30	Geographical Information Science	Urban Geography and Emerging Urban Transformations	Hazard and Risk	Land Use and Land Cover Change	Geography of the Global Information Society	Applied Geography	Geographical Education	Political Geography	Population Geography
	16:00 17:30	Geographical Information Science	Urban Geography and Emerging Urban Transformations	Hazard and Risk	Land Use and Land Cover Change	Geography of the Global Information Society	Applied Geography	Geographical Education	Political Geography	Population Geography
Thursday 17th november	09:30 10:30	Climatology	Geography of Tourism, Leisure, and Global Change	Cultural Approach in Geography	Global Change and Human Mobility	Geographical Information Science	Water Sustainability	Gender and Geography	Mountain Response to Global Change	Political Geography
	11:00 12:30	Climatology	Geography of Tourism, Leisure, and Global Change	Water Sustainability	Global Change and Human Mobility	Geographical Information Science	Geography of Governance	Megacities	Mountain Response to Global Change	Political Geography
	14:00 15:30	Climatology	Land Degradation and Desertification (COMLAND)	Health and Environment	Global Change and Human Mobility	Land Use and Land Cover Change	Geography of Governance	Megacities	Population Geography	Cultural Approach in Geography
	16:00 17:30	Climatology	Land Degradation and Desertification (COMLAND)	Health and Environment	Others	Hazard and Risk	Geography of Governance	Biogeography and Biodiversity	Political Geography	Cultural Approach in Geography
Friday 18th november	09:30 10:30	Land Degradation and Desertification (COMLAND)	Health and Environment	Biogeography and Biodiversity	Land Use and Land Cover Change	Water Sustainability	Geoparks	Coastal Systems	Islands	Cultural Approach in Geography
	11:00 12:30	Land Degradation and Desertification (COMLAND)	Health and Environment	Biogeography and Biodiversity	Land Use and Land Cover Change	Water Sustainability	Modeling Geographical Systems	Coastal Systems	Karst	Cultural Approach in Geography
	14:00 15:30	Land Degradation and Desertification (COMLAND)	Health and Environment	Biogeography and Biodiversity	Land Use and Land Cover Change	Water Sustainability	Climatology	Cold Region Environments	Geomorphic Challenges for the 21st Century	Cultural Approach in Geography
	16:00 17:30	Land Degradation and Desertification (COMLAND)	Health and Environment	Biogeography and Biodiversity	Arid Lands, Humankind, and Environment	Water Sustainability	Environment Evolution	Transport and geography	Geomorphic Challenges for the 21st Century	Cultural Approach in Geography
